Dr. Herminio Nevárez

„Diamante Internacional Platino y Fundador SEN“

Born in Puerto Rico, graduated in veterinary medicine, founder of the largest socio-economic movement SEN "Social Economic Networkers".

A man who takes risks and relies on principles and values as the basis for entrepreneurship.

He started in the network marketing industry and began to gather a lot of background knowledge to develop this field further. He gained experience (successes and failures) and tested it as a practical system.

He did not want to be left alone with this knowledge, on the contrary, he shares it with all those who have the determination to follow this path and to facilitate the success in this millionaire manufactory.

His generosity with his experience and knowledge, as well as the modesty to convey this, make him one of the most famous and outstanding men in the network marketing industry.

Carmen Solá

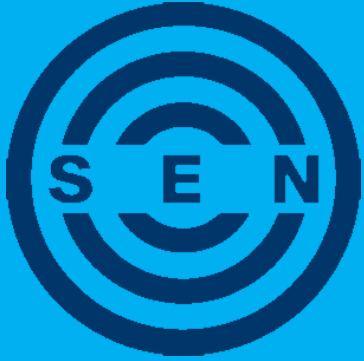

„Gold International Diamond“

Born in Barcelona (Spain) in an entrepreneurial family and also grew up in this environment.

She has a degree in translation and interpreting, partly because she wants to travel and see the world. She also owns a clinic for natural medicine in Barcelona.

She is a woman who is always relaxed and eager to learn, always ready to be inspired by any place she visits and by all the people who approach her.

Carmen shares with us in the depth of what it means to create a world economy without structural costs and without income limits. She brings us a message of freedom and also presents the vision of an updated entrepreneurship. She teaches us to be open to this change by showing us the change in her nature. She shows us what she loves most about this opportunity, what made her the person she is today. She is also sure that her being will continue to grow.
